SPECIFICATIONS

Conductor	: 7N Cu MEXCEL Solid Core 1.6φ×1 (Coaxial structure)
Insulation	: Teflon
Shielding	: Flat MEXCEL braided wire + Copper clad mylar tape + Silver plated copper braided wire
Outers sleeve	: UV resistant Polyurethane
Conductor resistance	: 8.0mΩ/m
Electrostatic capacitance	: 50pF/m
Impedance	: 75Ω
Cable diameter	: 11.3mm

RCA CONNECTOR

Positive terminal	: Beryllium 50 copper
Negative terminal	: Phosphors copper
Plating	: Mirror polish treatment with silver layered rhodium plating
Outer body material	: Aluminum + Carbon fiber + Duralumin

BNC CONNECTOR

Positive terminal	: Phosphors copper with 24K gold plating
Negative terminal	: Phosphors copper with silver layered rhodium plating
Outer body material	: Duralumin
